

Economic Forecast Sponsorship

As a corporate sponsor, you will be invited to our Economic Outlook Conferences and our exclusive Sponsor Seminars. **Economic Outlook Conference** is a half-day event where the most recent forecast for the Nation and southern Nevada is presented. Attendees consistently say that the conference is interesting, highly informative, and offers great opportunities for networking. Each attendee receives a notebook of the presentations and breakfast.

Sponsor Seminars are private forums attended by representatives of sponsoring organizations, UNLV faculty, and special, invited experts. The half-day seminars provide sponsors the opportunity for interaction and access to the latest economic information and research findings. Sponsors are able to share their concerns and engage in discussions that go in greater depth than the Outlook Conferences. The seminars are tailored to fit the specific needs of our sponsors and provide greater access to Dr. Schwer on economic issues. They are held twice a year. Attendees receive a packet of information and breakfast.
